<i>List of Acronyms and Abbreviations</i>	<i>v</i>
<i>List of Figures, Tables and Boxes</i>	<i>vi</i>
<i>About the Authors</i>	<i>ix</i>
<i>Preface</i>	<i>xii</i>
1. The Environment for Children	1
The Main Environmental Issues	1
The Need for a Safe Environment	4
Links between the Environment and Child Health	6
The Home Environment	7
Underlying Social, Economic and Political Causes of an Unhealthy Environment	15
Environmental and Non-environmental Influences on Child Health	18
Main Constraints on Child Health and Development in Poorer Nations	25
Environmental Problems, Political Solutions?	27
References	30
2. The Links between Environment and Health	33
Introduction	33
Biological Pathogens	34
Chemical Pollutants	43
The Availability, Cost and Quality of Natural Resources	49
Physical Hazards	54
Aspects of the Built Environment with Negative Psychosocial Consequences	56
Natural Resource Degradation	58
National/Global Environmental Degradation	58
Estimating the Contribution of Environmental Factors to the Global Disease Burden	59
References	67
3. The Vulnerability of the Infant and Child to Environmental Hazards	73
Introduction	73
The Child in the Womb	75
Infancy and Early Childhood	80
The Older Child	89
The Child at Work	91
Children in Especially Difficult Circumstances	94
Parents at Particular Risk from Environmental Hazards	96
References	100

4. Children and Renewable Resources	107
Introduction	107
Access to Renewable Resources and Poverty	108
Soil	109
Wildfoods	123
Implications for Children	124
Forest Resources	127
Access to Renewable Resources in Urban Areas	135
References	146
5. Sustaining Environment and Development	151
Bringing Development into Sustainable Development	151
The Different Components of Sustainable Development	153
What is to be Sustained?	155
What is Currently Unsustainable?	158
Non-renewable Resource Use	161
Non-renewable Sinks	163
Environmental Impact of Climate Change	164
Poverty and the Loss of Environmental Capital	169
Linking Global and Local Sustainability	169
References	171
6. Primary Environmental Care	174
Introduction	174
The Concept	175
The Rationale	177
Preconditions for Primary Environmental Care	181
The Nature of Participation; from Passive Participation and Manipulation to Self-mobilization	202
Future Needs – Scaling Up	204
Acting on the Wider Constraints	219
Concluding Comments	235
References	236
7. Children as a Bridge to Sustainable Development	242
Introduction	242
Global Education for All, with a Purpose	246
A Grounded Approach to Environmental Education	249
Household Environmental Management	251
Broadening Primary Health Care Projects into Primary Environmental Care	252
Schools as Centres for Primary Environmental Care	254
Reaching the Poorest Children	256
From Local to Global Understanding	256
References	258
<i>Bibliography</i>	259
<i>Index</i>	275
