List of Acronyms	viii
Acknowledgement	ix
1. Introduction	1
1.1 The Biodiversity Planning Support Programme	1
1.2 The economics thematic review	2
1.3 Documenting experiences, lessons learned and ways forward	3
2. Links Between Economics and Biodiversity	5
2.1 Economics in the Convention on Biological Diversity	5
2.2 Economic valuation of biodiversity	6
2.3 Economic incentives for biodiversity	9
3. Existing Guidance on the Use of Economic Measures for Biodiversity Planning	13
3.1 Guidelines for the preparation of NBSAPs	13
3.2 CBD documentation and workshops	14
3.3 Published literature on economics and biodiversity	16
4. Lessons Learned and Best Practices in the Use of Economic Measures in NBSAPs	25
4.1 Experiences in the use of economics in Biodiversity Country Studies and National Assessments	26
4.1.1 Consideration of economic issues	26
4.1.2 Using economic valuation as a justification for biodiversity conservation	26
4.1.3 Analysing the economic causes of biodiversity loss	28
4.1.4 Identifying the need for economic measures in the NBSAP	29
4.2 Experiences in the use of economics in NBSAPs	32
4.2.1 Economics as a cross-cutting theme	32
4.2.2 The use of economic instruments for biodiversity conservation	33
4.2.3 Mainstreaming biodiversity into economic sectors and decisions	35
4.3 Challenges and constraints to the use of economics in biodiversity planning	36
4.3.1 Capacity and awareness	36
4.3.2 Experiences and information on the use of economic measures for biodiversity	38
4.3.3 Integrating biodiversity into economic planning and decision-making	38
5. Ways Forward and Requirements in Using Economic Measures for NBSAP Planning	41
5.1 A framework for biodiversity, economic planning	41
5.2 Economics in the National Biodiversity Assessment or Country Study	42

5.3	Conclusions from the economic assessment of biodiversity	45
5.4	Economics in the National Biodiversity Strategy and Action Plan	46
<hr/>		
6.	Ways Forward and Requirements in Using Economic Measures for NBSAP Implementation	49
6.1	The risks of failing to use economic measures in support of NBSAP implementation	49
6.2	Using economic measures to support NBSAP implementation	50
6.3	Building a biodiversity economics capacity and information base	51
6.4	Presenting the NBSAP in development and economic terms	51
6.5	Designing, implementing and sustaining economic measures for biodiversity	52
6.6	Sustaining and reviewing economic measures over the long-term	53
<hr/>		
7.	Elements in the Design and Implementation of Incentive Measures	57
<hr/>		
8.	Reference and Key Literature on the Economics of Biodiversity	63
8.1	Literature	63
8.2	Internet resources	81
<hr/>
