I. INTRODUCTION	1
II. AGROBIODIVERSITY : CULTURES, COMPONENTS, CONSERVATION	3
1. Conserving traditional knowledge and wisdom	4
2. Identifying the components of agrobiodiversity	5
3. Ecosystem approach to conservation of agrobiodiversity	6
4. Methods to conserve agrobiodiversity - <i>ex-situ, in-situ</i>	9
5. Prioritisation in conservation	13
6. Priorities for action - ecosystem level, use level	15
III. CROSS-SECTORAL APPROACHES FOR AGROBIODIVERSITY CONSERVATION	19
1. Agriculture and forestry	19
2. Agriculture and fisheries	20
3. Agriculture and health	21
4. Agrobiodiversity assessment and valuation	22
5. Agriculture and land use policies	22
6. Food security and trade	23
7. Agrobiodiversity and biotechnology	24
8. Other impacts of agriculture	25
IV. AGROBIODIVERSITY UNDER INTERNATIONAL INSTRUMENTS	26
1. Convention on Biological Diversity (CBD)	26
2. The IUPGREFA	36
3. The IUPGREFA and the CBD	39
4. Intellectual Property Rights (IPRs) in agriculture	40
5. Combating Desertification and Drought under the Convention on Combating Desertification	42
V. WAYS FORWARD	43
1. Biodiversity friendly technologies	43
<i>Integrated Soil, Water and Plant Nutrition Management</i>	43
<i>Integrated Pest Management</i>	44
<i>Integrated Gene Management</i>	45

2.	International cooperation and initiatives to conserve agrobiodiversity	45
3.	National level actions	49
4.	Participatory approaches	51
5.	Innovative methods to promote conservation of agrobiodiversity	55
6.	Adoption of IUPGRFA as a Protocol to CBD	57
7.	Management issues	58

VI. CONCLUSIONS AND RECOMMENDATIONS 61
