

## Contents

Foreword .....	iii
Background and acknowledgements.....	1
Terminology .....	3
<b>PART A – INTRODUCTION, PRINCIPLES AND RECOMMENDATIONS .....</b>	<b>5</b>
Chapter A.1 Introduction.....	6
Chapter A.2 Safety principles for tailings management facilities .....	9
Chapter A.3 Recommendations.....	11
Recommendations to member countries.....	11
Recommendations to competent authorities.....	12
Recommendations to tailings management facility operators .....	13
<b>PART B – TECHNICAL AND ORGANIZATIONAL ASPECTS .....</b>	<b>15</b>
Chapter B.1 Pre-construction and construction.....	16
Licensing.....	16
Environmental impact assessment and land-use planning.....	17
Hazard identification and risk assessment .....	17
Dam safety .....	20

Chapter B.2	Operation and management.....	21
	Management.....	21
	Education and training of personnel.....	22
	Education and training of inspectors .....	23
Chapter B.3	Facility inspections.....	24
Chapter B.4	Identification, assessment and management of abandoned sites.....	25
	Assessment of and priority tasks for abandoned sites.....	25
	Management of abandoned sites.....	26
Chapter B.5	Emergency planning.....	27
	Internal emergency planning.....	28
	External emergency planning.....	29
	Emergency planning for abandoned sites .....	30
	<b>PART C – REFERENCES .....</b>	<b>31</b>
	References to documentation on mining and tailings .....	32
	General sources of information .....	32
